

```
jimmy@J3Jimmy:~/projects/docker/zoneminder$ docker port zoneminder
80/tcp -> 0.0.0.0:1080
jimmy@J3Jimmy:~/projects/docker/zoneminder$ docker run -d -t -p 1080:80 --name zoneminder zoneminder/zoneminder
```

out there, or where are these systems located? Knowing the answers to these questions, helps users who ask us

```
docker run -d -t -p 1080:80 \
  --name zoneminder \
  zoneminder/zoneminder
```
